EXPERIENCE

Automation Manager
Sep 2025 - May 2026
Evo Coaching e Editora LTDA - Marcio Micheli
Aguas Claras, DF

- Managed digital communications and website maintenance, keeping pages, content, and systems updated, functional, and aligned with business strategy.
- Created and maintained launch and high-intensity campaign operations, including mass WhatsApp messaging through ManyChat, email campaigns through ActiveCampaign, and relationship automation.
- Managed Redirect+ and Sendflow groups, as well as communication workflows for events and contact bases with more than 13,000 people.
- Created payment links in Teachable and handled direct communication with large contact bases, including event countdown flows, instruction letters, and absence follow-up protocols.

Software Developer and Systems Analyst
Aug 2024 - Sep 2025
BRL Educação - Business Training
Brasilia, DF

- Analyzed and integrated systems and tools to connect marketing, sales, and finance processes.
- Configured CRMs, automations, fields, pipelines, and service workflows focused on organization and operational gains.
- Developed customized solutions in Lovable and supported the use of AI to optimize internal routines.
- Integrated tools through webhooks and platforms such as Make, Zapier, Pluga, and Kommo.

AI, Automation and Web Development Specialist
2024 - Present
Independent projects / service provider
Remote

- Created and maintained WordPress pages, landing pages, and e-commerce adjustments for clients.
- Built automations with Make and n8n for service flows, CRM, forms, lead capture, and follow-up.
- Implemented chatbots and workflows integrated with WhatsApp, CRM, and digital marketing tools.
- Developed simple and functional solutions to reduce manual tasks and centralize information.

Communications and Operations Analyst
Feb 2023 - Dec 2024
Conectados com Deus - Church
Brasilia, DF

- Managed orders, operational organization, and supported the promotion of free Bible courses in digital and physical channels.
- Created landing pages, digital assets, and communication materials for campaigns and internal projects.
- Supported live broadcasts, recordings, video/photo editing, and digital content operations.

Administrative Assistant - Apprentice

Sep 2021 - Dec 2021
Belo Horizonte, MG

KPMG

- Cataloged and organized physical documents during the administrative archive transfer process.
- Supported administrative routines with a focus on punctuality, professional ethics, and record integrity.

EDUCATION

PROJECTS AND SYSTEMS

Hands-on work focused on integration, automation, websites, and digital solutions for sales operations, communication, and customer service.

CRM integration with websites and systems
Configuration of pipelines, fields, bots, forms, webhooks, and automations to connect lead capture, service, and follow-up processes.

Sales process automation
Workflows using Make, n8n, Zapier, and Pluga to reduce manual tasks, standardize steps, and improve information traceability.

Web development and WordPress
Creation and maintenance of landing pages, institutional pages, and website/e-commerce adjustments using WordPress, Hostinger, cPanel, HTML, and CSS.

Chatbots and automated service flows
Structuring customer service, lead qualification, and lead nurturing flows with Kommo, WhatsApp, marketing tools, and AI.
